Surface Ocean: Lower Atmosphere Processes

Surface Ocean: Lower Atmosphere Processes
Published by the American Geophysical Union as part of the Geophysical Monograph Series, Volume 187.

The focus of *Surface Ocean: Lower Atmosphere Processes* is biogeochemical interactions between the surface ocean and the lower atmosphere. This volume is an outgrowth of the Surface Ocean-Lower Atmosphere Study (SOLAS) Summer School. The volume is designed to provide graduate students, postdoctoral fellows, and researchers from a wide range of academic backgrounds with a basis for understanding the nature of ocean-atmosphere interactions and the current research issues in this area.

The volume highlights include the following:

- Background material on ocean and atmosphere structure, circulation, and chemistry and on marine ecosystems
- Integrative chapters on the global carbon cycle and ocean biogeochemistry
- Issue-oriented chapters on the iron cycle and dimethylsulfide
- Tool-oriented chapters on biogeochemical modeling and remote sensing
- A framework of underlying physical/chemical/biological principles, as well as perspectives on current research issues in the field.

The readership for this book will include graduate students and/or advanced undergraduate students, postdoctoral researchers, and researchers in the fields of oceanography and atmospheric science. It will also be useful for experienced researchers in specific other disciplines who wish to broaden their perspectives on the complex biogeochemical coupling between ocean and atmosphere and the importance of this coupling to understanding global change.

From reader reviews:

Michael Pabon:

The book Surface Ocean: Lower Atmosphere Processes can give more knowledge and information about everything you want. Exactly why must we leave the best thing like a book Surface Ocean: Lower Atmosphere Processes? A number of you have a different opinion about reserve. But one aim that will book can give many details for us. It is absolutely proper. Right now, try to closer with the book. Knowledge or info that you take for that, you can give for each other; you are able to share all of these. Book Surface Ocean: Lower Atmosphere Processes has simple shape nevertheless, you know: it has great and massive function for you. You can look the enormous world by open and read a reserve. So it is very wonderful.

Timothy Bullock:

Now a day people that Living in the era wherever everything reachable by talk with the internet and the resources inside can be true or not require people to be aware of each data they get. How a lot more to be smart in obtaining any information nowadays? Of course the reply is reading a book. Looking at a book can help persons out of this uncertainty Information particularly this Surface Ocean: Lower Atmosphere Processes book since this book offers you rich info and knowledge. Of course the details in this book hundred per-cent guarantees there is no doubt in it you know.

Robert Baxter:

This book untitled Surface Ocean: Lower Atmosphere Processes to be one of several books that best seller in this year, that is because when you read this e-book you can get a lot of benefit in it. You will easily to buy this book in the book retailer or you can order it by using online. The publisher in this book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Cell phone. So there is no reason to you to past this guide from your list.

Diana Slama:

The publication untitled Surface Ocean: Lower Atmosphere Processes is the book that recommended to you to read. You can see the quality of the book content that will be shown to anyone. The language that author use to explained their way of doing something is easily to understand. The article author was did a lot of investigation when write the book, and so the information that they share to your account is absolutely accurate. You also can get the e-book of Surface Ocean: Lower Atmosphere Processes from the publisher to make you considerably more enjoy free time.
