Research Handbook on Economic Models of Law (Research Handbooks in Law and Economics series)
Thomas J. Miceli, Matthew J. Baker
One of the great successes of the law and economics movement has been the use of economic models to explain the structure and function of broad areas of law. The original contributions to this volume epitomize that tradition, offering state-of-the-art research on the many facets of economic modeling in law.

The contributors employ a variety of economic methodologies to explore a wide range of topics, including torts, contracts, property, crime, employment, the environment, and legal procedure. This depth and breadth of scholarship reflect the continuing vitality of the economic approach to law, offering an illuminating look into the future of the field and providing inspiration and guidance for the next generation of theorists.

This timely volume will appeal to students, professors and researchers in both law and economics, particularly those with an interest in the theoretical and practical intersections of the two fields.

Contributors: L. Anderlini, M. Baker, F. Baumann, J. De Mot, B. Deporter, D. Dharmapala, W. Emons, L. Felli, C. Fluet, T. Friehe, N. Garoupa, Z. Grossman, S. Izmalkov, C. Landeo, R. McAdams, T.
