Clinical Masking Procedures

William S. Yacullo

Clinical Masking Procedures William S. Yacullo
Clinical Masking Procedures provides the most comprehensive discussion of the topic currently available, presenting a theoretical foundation of masking that is essential for the understanding of applied clinical techniques. A strong foundation in the underlying concepts enables the clinician to make well informed decisions when selecting a specific approach and in applying and modifying the appropriate procedure. The goal of this book is to facilitate an understanding of the decision-making process required for clinical masking through problem-solving techniques.An entire chapter is devoted to clinical masking procedures using insert earphones, a current (and future) trend that has achieved increasing popularity over the past few years. Chapter 9 consists of a group of case studies, each of which includes a series of audiograms that takes the reader step-by-step from the initial audiological results through the completed audiological evaluation.
