Images, Idolatry, and Iconoclasm in Late Medieval England: Textuality and the Visual Image

Images, Idolatry, and Iconoclasm in Late Medieval England: Textuality and the Visual Image
This book capitalizes on brilliant recent work on sixteenth-century iconoclasm to extend the study of images, both their making and their breaking, into an earlier period and wider discursive territories. The essays that make up this volume were commissioned from a range of outstanding late medievalists in a variety of disciplines: literature, art history, Biblical studies, and intellectual history.
