On Painting (Classics S) Leon Battista Alberti
Artist, architect, poet and philosopher, Leon Battista Alberti revolutionized the history of art with his theories of perspective in *On Painting* (1435). Inspired by the order and beauty inherent in nature, his groundbreaking work sets out the principles of distance, dimension and proportion; instructs the painter on how to use the rules of composition, representation, light and colour to create work that is graceful and pleasing to the eye; and stipulates the moral and artistic pre-requisites of the successful painter. *On Painting* had an immediate and profound influence on Italian Renaissance artists including Ghiberti, Fra Angelico and Veneziano and on later figures such as Leonardo da Vinci, and remains a compelling theory of art.
