The Clinical Thinking of Wilfred Bion (Makers of Modern Psychotherapy) Neville Symington, Joan Symington

Winner of the 2013 Sigourney Award!

Psychoanalysis seen through Bion's eyes is a radical departure from all conceptualizations which preceded him. In this major contribution to the series *Makers of Modern Psychotherapy*, Joan and Neville Symington concentrate on understanding Bion's concepts in relation to clinical practice, but their book is also accessible to the educated reader who wishes to understand the main contours of Bion's thinking. Rather than following the chronological development of Bion's ideas, each chapter looks in depth at an important theme in his thinking and describes how this contributes to his revolutionary model of the mind.
