Every Other Thursday: Stories and Strategies from Successful Women Scientists Ellen Daniell
This book tells the story of a professional problem-solving group that for more than 25 years has empowered its members by providing practical and emotional support. The objective of “Group,” as Ellen Daniell and six other members call their bimonthly gatherings, is cooperation in a competitive world. And the objective of *Every Other Thursday* is to encourage those who feel isolated or stressed in a work or academic setting to consider the benefits of such a group—a group in which everyone is on your side.
Each of the high-achieving individuals in Group (including members of the National Academy of Sciences, a senior scientist at a prestigious research institute, and university professors and administrators) has found the support of the others to be an essential part of her own success. Daniell provides detailed examples of how members help one another navigate career setbacks or other difficulties. She shows that group support, discussion, and application of common experience bring to light practical solutions and broader perspectives. In an inspirational conclusion, the author offers advice and practical guidelines for those who would like to establish a group of their own.
