GeoCongress 2012: State of the Art and Practice in Geotechnical Engineering (Geotechnical Special Publication (GSP) 225) Roman D. Hryciw, Adda Athanasopoulos-Zekkos, Nazli Yesiller
This collection contains 463 peer-reviewed papers integrating current geotechnical research and practice. Papers explore recent advances, sustainability, the use of new technologies, and cast histories. Topics include: foundations; earth stability; soil properties; geotechnical engineering education; pavements; geotechnical earthquake engineering; analytical, numerical, and physical modeling; unsaturated soils; site characterization, in situ testing, and monitoring; rock and underground space; geoenvironmental engineering; and emerging topics. These papers are valuable to geotechnical researchers and engineers, especially those interested in blending the latest current research with the best of engineering practice.

From reader reviews:

Barbara Jackson:

Do you have favorite book? For those who have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each publication has different aim or perhaps goal; it means that book has different type. Some people really feel enjoy to spend their the perfect time to read a book. They can be reading whatever they get because their hobby is reading a book. What about the person who don't like examining a book? Sometime, person feel need book whenever they found difficult problem or perhaps exercise. Well, probably you'll have this GeoCongress 2012: State of the Art and Practice in Geotechnical Engineering (Geotechnical Special Publication (GSP) 225).

Patrick Reyes:

The feeling that you get from GeoCongress 2012: State of the Art and Practice in Geotechnical Engineering (Geotechnical Special Publication (GSP) 225) is the more deep you searching the information that hide within the words the more you get interested in reading it. It doesn't mean that this book is hard to know but GeoCongress 2012: State of the Art and Practice in Geotechnical Engineering (Geotechnical Special Publication (GSP) 225) giving you excitement feeling of reading. The author conveys their point in a number of way that can be understood by anyone who read it because the author of this reserve is well-known enough. This book also makes your current vocabulary increase well. So it is easy to understand then can go to you, both in printed or e-book style are available. We advise you for having this GeoCongress 2012: State of the Art and Practice in Geotechnical Engineering (Geotechnical Special Publication (GSP) 225) instantly.

Sheila Rivera:

Are you kind of active person, only have 10 or maybe 15 minute in your moment to upgrading your mind skill or thinking skill also analytical thinking? Then you are having problem with the book as compared to can satisfy your limited time to read it because this time you only find publication that need more time to be read. GeoCongress 2012: State of the Art and Practice in Geotechnical Engineering (Geotechnical Special Publication (GSP) 225) can be your answer given it can be read by an individual who have those short extra time problems.

Annie Hiatt:

Is it a person who having spare time in that case spend it whole day simply by watching television programs or just lying down on the bed? Do you need something totally new? This GeoCongress 2012: State of the Art and Practice in Geotechnical Engineering (Geotechnical Special Publication (GSP) 225) can be the respond to, oh how comes? It's a book you know. You are and so out of date, spending your spare time by reading in this new era is common not a geek activity. So what these textbooks have than the others?
