Kuang-Hua Chang

Design Theory and Methods using CAD/CAE: The Computer Aided Engineering Design Series
Kuang-Hua Chang

The fourth book of a four-part series, *Design Theory and Methods using CAD/CAE* integrates discussion of modern engineering design principles, advanced design tools, and industrial design practices throughout the design process. This is the first book to integrate discussion of computer design tools throughout the design process. Through this book series, the reader will:

- Understand basic design principles and all digital modern engineering design paradigms
- Understand CAD/CAE/CAM tools available for various design related tasks
- Understand how to put an integrated system together to conduct All Digital Design (ADD) product design using the paradigms and tools
- Understand industrial practices in employing ADD virtual engineering design and tools for product development

- The first book to integrate discussion of computer design tools throughout the design process
- Demonstrates how to define a meaningful design problem and conduct systematic design using computer-based tools that will lead to a better, improved design
- Fosters confidence and competency to compete in industry, especially in high-tech companies and design departments

From reader reviews:

Tommie Matthews:

In this 21st century, people become competitive in every single way. By being competitive currently, people have do something to make these survives, being in the middle of the actual crowded place and notice by simply surrounding. One thing that often many people have underestimated it for a while is reading. Yep, by reading a e-book your ability to survive boost then having chance to remain than other is high. For yourself who want to start reading any book, we give you that Design Theory and Methods using CAD/CAE: The Computer Aided Engineering Design Series book as beginner and daily reading book. Why, because this book is more than just a book.

Roger Lindsey:

Reading a book to be new life style in this yr; every people loves to study a book. When you read a book you can get a large amount of benefit. When you read guides, you can improve your knowledge, mainly because book has a lot of information into it. The information that you will get depend on what forms of book that you have read. If you need to get information about your examine, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, these kinds of us novel, comics, along with soon. The Design Theory and Methods using CAD/CAE: The Computer Aided Engineering Design Series provide you with new experience in reading a book.

Barry Whitfield:

Is it you who having spare time and then spend it whole day by simply watching television programs or just laying on the bed? Do you need something totally new? This Design Theory and Methods using CAD/CAE: The Computer Aided Engineering Design Series can be the solution, oh how comes? A book you know. You are therefore out of date, spending your spare time by reading in this brand new era is common not a geek activity. So what these publications have than the others?

Cody Chenault:

A lot of people said that they feel fed up when they reading a book. They are directly felt the item when they get a half portions of the book. You can choose often the book Design Theory and Methods using CAD/CAE: The Computer Aided Engineering Design Series to make your reading is interesting. Your own personal skill of reading ability is developing when you similar to reading. Try to choose straightforward book to make you enjoy to study it and mingle the opinion about book and studying especially. It is to be 1st opinion for you to like to open up a book and read it. Beside that the reserve Design Theory and Methods using CAD/CAE: The Computer Aided Engineering Design Series can to be your brand-new friend when you're feel alone and confuse using what must you're doing of that time.
