Linux Sound Programming jan newmarch
Program audio and sound for Linux using this practical, how-to guide. You will learn how to use DSPs, sampled audio, MIDI, karaoke, streaming audio, and more. *Linux Sound Programming* takes you through the layers of complexity involved in programming the Linux sound system. You'll see the large variety of tools and approaches that apply to almost every aspect of sound. This ranges from audio codecs, to audio players, to audio support both within and outside of the Linux kernel.

What You'll Learn

- Work with sampled audio
- Handle Digital Signal Processing (DSP)
- Gain knowledge of MIDI
- Build a Karaoke-like application
- Handle streaming audio

Who This Book Is For

Experienced Linux users and programmers interested in doing multimedia with Linux.

From reader reviews:

Linda Brown:

Book will be written, printed, or created for everything. You can recognize everything you want by a guide. Book has a different type. As it is known to us that book is important issue to bring us around the world. Beside that you can your reading talent was fluently. A reserve Linux Sound Programming will make you to always be smarter. You can feel much more confidence if you can know about every little thing. But some of you think in which open or reading the book make you bored. It isn't make you fun. Why they could be thought like that? Have you seeking best book or suited book with you?

Chris Barrentine:

Information is provisions for anyone to get better life, information these days can get by anyone with everywhere. The information can be a information or any news even an issue. What people must be consider whenever those information which is inside former life are challenging be find than now could be taking seriously which one is acceptable to believe or which one the resource are convinced. If you get the unstable resource then you buy it as your main information you will see huge disadvantage for you. All of those possibilities will not happen within you if you take Linux Sound Programming as your daily resource information.

Elliott Preciado:

Is it you actually who having spare time then spend it whole day by simply watching television programs or just resting on the bed? Do you need something totally new? This Linux Sound Programming can be the response, oh how comes? It's a book you know. You are consequently out of date, spending your time by reading in this completely new era is common not a geek activity. So what these textbooks have than the others?

Mabel Maddux:

Reading a reserve make you to get more knowledge from this. You can take knowledge and information coming from a book. Book is created or printed or created from each source which filled update of news. With this modern era like currently, many ways to get information are available for a person. From media social similar to newspaper, magazines, science book, encyclopedia, reference book, new and comic. You can add your understanding by that book. Do you want to spend your spare time to open your book? Or just trying to find the Linux Sound Programming when you required it?
