Swimming (Live Action)

Andrew Langley

Swimming (Live Action) Andrew Langley
Keep on Moving! Focusing on how we move about, Live Action is a bright and breezy introduction to the human body as well as animal bodies. Human movement is analysed through body movement in sport and dance, and animals are viewed in action with emphasis on the way different animals move depending on their environment. This carefully considered series helps children understand how the human body works and the concept of adaptation in animals. Contains a glossary, table of contents and an index.
