Universally Designed Leadership: Applying UDL to Systems and Schools Katie Novak, Kristan Rodriguez
The new Every Student Succeeds Act governing K-12 education in the United States defines and endorses Universal Design for Learning (UDL) as a framework to help achieve greater opportunity and academic achievement for all learners, including those with disabilities, English learners, and “gifted and talented” students. In this book, Novak and Rodriguez, veteran school administrators, provide school leaders and educators with a guidebook for putting the UDL framework into practice. They show how to guide district and school staff in discussions around student data and use the UDL guidelines to shape curriculum decisions. This is a must-read for any education leader who wants to create more equitable, inclusive, and effective learning environments.
