The Metaphysics of Capitalism

Andrea Micocci

The Metaphysics of Capitalism Andrea Micocci
This multidisciplinary work departs from the Marxist materialist tradition by criticizing its logical flaws and its incapacity to work out a naturalistic materialism. Micocci argues that capitalism itself is based on a dialectical intellectuality enforced despite the non-dialectical potentialities present in the material in general. Capitalism, therefore, is a massifying system isolated from nature by an intellectual fiat, and has no capacity for theoretical and technical innovation.
