Alice, The Enigma: Queen Victoria's Daughter

Christina Croft

Alice, The Enigma: Queen Victoria's Daughter Christina Croft
Of all Queen Victoria’s nine children, none was more intriguing than her second daughter, Alice. The contradictions in her personality are so striking that, while she has often been overshadowed by her more illustrious brother, King Edward VII, and her brilliant sister, the German Empress Frederick, she remains to this day an enigma, the depths of whose character are virtually impossible to penetrate. By the time of her premature death at the age of only thirty-five, Alice had lived through two wars, had lost two of her children, and had exhausted herself in her devotion to duty to the extent that she suffered from disillusionment almost to the point of despair. Nonetheless, in the final tragic weeks of her life, she met unimaginable grief with courage and serenity, and her last words demonstrated her ultimate redemption and the beautiful restoration of all she had loved and lost.
