Towards Cascadia Ryan C Moothart
In *Towards Cascadia*, author Ryan C. Moothart smoothly and convincingly pieces together seemingly disjointed bits of information into a cogent plan for this matchless culture and geography. Moothart's goal is to "propose a different way of understanding the Pacific Northwest and regional differentiation in upper North America."
In one of the very few books written exclusively on the subject of Cascadia, readers are offered a comprehensive argument to consider and analyze, including the concept of bioregionalism and hot it impacts the character of a society.
The movement towards Cascadia, Moothart tells us, is growing. This is no flash in the pan - it is a solid, fact-based vision and new philosophy for the future.
